Correspondence.

While "The Review" invites and welcomes free expression of public opinion in its columns, it must nevertheless be distinctly understood that the editor in no wise necessarily agrees with the views of its correspondents.

LIFT THE BAN.

To the Editor of "The Review."
Dear Sir,—I have been informed this week that at a meeting of the Local Board of Health held on Monday evening last its members decided to raise the ban in so far as the school is concerned.

When one considers the length of time the people have suffered restrictive measures in connection with the spread of influenza, and how patiently they have borne the decrees and instructions of the Local Board it would have been thought that the Board would have asked the very first opportunity to give the residents a little more latitude. For over three months we have been sitting twiddling our thumbs, seven days in the week, waiting for the word that would lift us out of the slough of despond. We have suffered with commendable fortitude the indignity of being muzzled, we have even borne with calm resignation the deprivation of our little "movies" in the belief that it was for the common good. Our children have had nearly three months' enforced idleness from their studies, and in common with their parents and others have been shut out from the House of God.

The town, I believe, is free of the flu, and has been for some time, and I understand the recent decision of the Board was prompted solely by reports (or guesses as you will) of an increase in the epidemic from outside points.

Does it not strike you, Mr. Editor, as a little inconsistent for the Board of Health to keep our churches closed, and to prohibit activity on the part of our various local lodges, to open the school and allow the children to resume their studies.

Not that I object to the school being opened. I welcome it like the consistency of the whole thing; to say the least, is curious.

Our churches, at this time of the year especially, are attended almost wholly by the townspeople and those living in the vicinity.

Why keep these closed?
Our lodges, the various Ladies' Aids and other organizations, are also supported mainly by local residents.

It is the desire of the Board to keep those people out of the town coming from the infected areas, then the only thing to do is to close our stores and post-halls, for is it in these more than anywhere else where the real danger (if any) lies.

Finally, may I emphasize that I do not wish to criticize the Board unduly. It has had its problems to face and on the whole these have been met very satisfactorily. I would, however, like to state that undoubtedly there is a very strong feeling in town that a little more freedom should now be allowed, because after being restricted, as we have been, for such a long time it is but natural for the residents to expect a little relaxation, and this I trust the Board will soon see fit to allow.

Yours certainly,
PRO BONO PUBLICO.

Dr. H. Neckelshing, the well known and experienced ophthalmic specialist, will make his next visit to Bow Island on Wednesday, January 8th, and Burdett, Tuesday, January 7th. You take no chances by consulting him if you eyes or glasses trouble you.

The Rev. and Mrs. N. R. T. Bras left today (Friday) to take up their residence at Viking, Alberta, to where the farmer has been transferred. Both of them have resided in Bow Island for some time, and there are a large number here in town and country who will wish Mr. and Mrs. Bras all success in their new home.

Another Artesian Flow.

In no wise appalled by the nigardly rainfall of the last two years our farmers are showing a determination and confidence in the country that is beyond all praise. The scanty amount of moisture received from the clouds has induced many to try their luck down below, and from reports already published in "The Review" the efforts of those seeking the precious fluid it is learned have in almost every instance been crowned with success.

This week we have another example to chronicle. Mr. T. Roberts, living about eight and a half miles south of Bow Island, in the Harewood district, on sec. 14-9-11, has just drilled in and obtained a flow of water, averaging one hundred barrels per day, and in addition to this has sufficient natural gas from the well to heat and light his house.

The water was obtained at a depth of 710 feet 10 inches, and is now flowing in a steady stream from an inch and a half pipe.

At the Grindstone

Benjamin Franklin is considered to be one of the wisest men that America has ever produced. He has been dead over one hundred years, but his reputation has not declined through the progress of time. Of getting and saving money he said: "A man may, if he knows not how to save as he gets, keep his nose to the grindstone." There is now no need of a Canadian keeping his nose at the grindstone, for the War Savings Plan enables him to save easily. Pay \$1.00 for a War Savings Stamp and in 1924 the Government will give \$5.00 for it. If you can't afford to buy a War Savings Stamp pay 25 cents for a Thrift Stamp and when you have 16 of them exchange them for a W.S.S.

The Power of the Press

Buck's Falls Arrow.—Forty-four hundred newspapers get \$100,000 in advertising. Victory Bonds and give that much more free of charge about fourteen "experts" get \$30,000 for preparing advertising copy; and the brokers and bankers and canvassers get several million dollars in commissions for selling the bonds, the demand for which was created wholly and solely by the press. The Arrow is not surprised to learn that the Finance Minister speaks glowingly of the "patriotism" of the press. But, of course, the patriotism of the big interests and the big fellows must be paid for in current coin of the realm.

WEDDING.

GODFREY-HOCHSTEIN.
At St. Barnabas Church, Medicine Hat, Mr. Thomas Claude Godfrey, of Medicine Hat, and (Mrs.) Mary Hochstein of Bow Island, Alberta, were united in the bonds of matrimony.

The Rev. E. A. Davis, rector of St. Barnabas, officiated.

Get Your Candidates Ready.

The nominations for Councillors for the Municipal Districts will take place on February 20th, the elections being a week later.

For the Forty-Mile we understand Mr. Roberts will again seek nomination.

Supply of Shipping Will Now Soon Be Normal

London. — Referring to a memorandum on the merchant shipping of the world issued by Lloyd's register and the British admiralty, Sir James Wilson, chairman of the central agricultural committee for Scotland, declares that within a few months the supply of shipping for commerce will be over the demand as compared with the pre-war relationship, and freight will fall to a level not much more than double the rates which were current before the war.

He points out that already there has been a rapid fall in freight. He believes that, while the present shortage of the world's merchant steamers is considerably less than in July, 1914, it is larger than it was on an average of five years before the war and will increase so rapidly that in a year, he thinks, it will be much larger than ever in the world's history.

Sir James says the resources of most of the European countries have been greatly reduced and it will take some time to reorganize their industrial life so that the demand for importing of food and raw material into Europe is likely to be for some time less than the pre-war demand.

For the same reason the quantity of manufactured goods exported from Europe is likely for some time to be less than it was before the war, that although it seems probable that a few months hence, the supply of shipping for purposes of commerce will be greater than the demand for the shipping as compared with the pre-war relation of supply and demand.

Intervention in Russia May Be Abandoned

Allies Will Not Send Any More Troops to Russia

Paris. — The allied governments have decided against further intervention in Russia, at least for the present, according to indications from official sources. Great Britain and the United States, it is reported, while recognizing that Russia should be assisted in a way to permit her to get back to normal conditions, point out that military intervention on a large scale would involve great difficulties and dangers of all kinds.

The French foreign minister explained the situation at length in the committee on foreign relations. He said the solution at present was to guard moral support to the governments which have sprung up at various points on Russian and Siberian territory.

Odesa. — The volunteer army which is holding Odesa, under French command, is to be increased by the detachments from the Crimea. The main force of the republican army is reported to have received reinforcements from Kiev, who came in an armored train.

More than 200 persons were killed in the fight fighting here on December 18, a revised count shows. One-third of these were civilians. Several school children were wounded.

Display of Captured Cannon

Sight of Thousands of Guns Proot Victory Is a Fact

London. — One of the striking features of Paris during the progress of the new liberation campaign was the display of an immense collection of cannon captured from the Germans. On such a historical spot, the display had an impressive effect. At one corner of the immense square sat the immobile figure of Alsace, typified by the figure of a woman regarding, one might well imagine, the triumph which 40 years and more of patient waiting had brought to the once desolated France.

The show of these captured German guns, according to a correspondent to the Times, was intended to appeal to adults. The sight of many thousands of guns, of all calibres and types, reverted from an obsolete engine, must be a proof that victory is no longer an ideal but a fact. To spread upon public pavements tortures, field guns, machine guns, heavy guns, in dozens, in hundreds, in thousands, is to convince. To light it all up at night when an undimmed light had not been seen for four years was to dazzle with cheerfulness and security.

Alplanes for Schools

Montreal. — Three aeroplanes which Mr. James Garfield had donated to the Canadian aviation training camps, have now been presented to technical schools at Montreal, Winnipeg and Edmonton, where they may be of value in technical education.

Representation Arrangements For Conference

Each of Four Great Powers Will Have Five Seats

London. — The Manchester Guardian believes it has been decided regarding the representation at the peace conference, that each of the four great powers will probably have five seats at the conference, but that will not necessarily always be occupied by the same men.

Dominion representatives, the Guardian understood, will not be in the grand committee of the international conference, but will present their case as small nations before the conference, and will, therefore, be in close touch all the time with the imperial cabinet.

The Guardian further understands that the Labor party will nominate a representative, but a labor man will probably be asked to go to Paris to sit on one or more of the committees.

BRAVED ALL PERILS

British Submarine Carried On to the End

London. — The finest of all tales of the achievements of British submarines in war time, is now completed by the official story of the sinking of the famous submarine E-14, off the Dardanelles early in 1918, with the loss of her new commander, Lieutenant Commander White and seven of the crew.

The E-14 left Mudros on the evening of January 22, and proceeded on the Dardanelles to search for the Goeben. After diving under submarine nets, and after the Goeben, which the enemy had moved a few hours previously, had gone, so Commander White turned back, keeping sharp lookout for enemy craft. A torpedo was fired at the ship, which it transpired, carried the Goeben's ammunition, causing a heavy explosion, which extinguished the submarine's lights and sprang the fore-hatch. Leaking badly, the submarine rose to within 15 feet of the surface.

This drew a heavy fire but she was not damaged. She submerged to a hundred feet and proceeded on her course, but became unsteady and kept diving so she was brought to the surface which she could no longer be relied upon under water and only three bottles of air were left. A heavy fire immediately opened from both sides of the straits, and a shell hit the hull just over the ward room, destroying the upper steering gear. An E-14 survivor says:

"Orders were given to steer from below and we ran the gauntlet for half an hour, only a few shots hitting us. The captain, seeing it was hopeless to escape, ran aground on the shore. His last words were 'We are in God's hands.' Only a few seconds later the E-14 was a wreck, the body, mangled by shell fire, fell into the water and got under. The last shell hit the starboard tank, killing all 11 bellies."

The submarine soon afterwards ran into a sandbar close inshore and Turks picked up the survivors.

German Fleet Should Be Used

Greek Ex-governor Favors Admitting Troops to World's Tonnage

Boston. — Dr. John N. Mitzas, former governor of Salonika, who is visiting the United States in the capacity of a friend of Venizelos, the prime minister of Greece, said that Greece is vitally interested in freedom of the seas, but that she had no one with any perspicacity at all would venture to take seriously any proposal that would want control of the high seas from Great Britain.

It would be absurd to expect Britain to consent of yielding to such a plan. The United States, with its vast internal resources, would be self-sustaining for many years if its merchant fleet were driven from the seas, but the British empire, spread over all parts of the world, could not long survive under such a condition. Dr. Mitzas explained.

He was asked to state the Greek view of the proposal to sink the surrendered German fleet. "The proposition is unworkable," he replied. "There is not the slightest doubt that the German fleet can be disposed of harmoniously by the allies. If it is no longer needed for decades of war, why not remove the guns and use the great ships for peaceful pursuits? There certainly is need for every possible addition to the world's tonnage."

Replaced by Republican Guard

Navy Men are Objecting to the New Ruling

Berlin. — The German foreign office and the chancery adjutant, which is at present the seat of the government, were blockaded for an hour and a half by a squad of sailors which had been doing guard duty there for the past month.

The navy men were who were about to be replaced by a republican soldier guard and sent back to Kiel, objected to the new ruling. As a protest, against the action of the military commander, small squads of sailors attempted demonstrations in the various parts of the downtown districts.

At a guardhouse in the Unter den Linden, the sailors clashed with members of the new republican guard. Shots were exchanged, and it is reported there were a number of casualties.

A wild bullet entered the classroom in the University of Berlin, but no damage was done. The presence of the sailors in Berlin has been a source of dissatisfaction among the troops returning from the front and friction frequent.

Suspicion also is general that the blackjackets have leanings toward the Spartacus group.

Foodstuffs Sent to Finland

Washington. — The steady progress toward the establishment of a popular government in Finland on a comparatively stable basis, free from German control, has received new impetus in a decision by the United States and her allies to furnish that country at once with foodstuffs for civilian relief.

The shipment of 20,000,000 pounds of foodstuffs to Finland was authorized by the war trade board with the approval of the allied governments.

Want the Kaiser Back

Plan to Re-establish Monarchy in Germany

Berlin. — Royalists have started an active propaganda campaign to win the support of the German and Austrian people for re-establishing of the monarchy.

The movement centres in Bavaria, regarded as the pivotal state of the Austro-German political situation. It is being conducted by the aristocratic group, who at present are devoting their strongest efforts to the rural populations.

The republicans are convinced that formal establishment of a German republic and election of a president, would be the last of this movement, or the first of next—will effectually end the aspirations of the monarchists. As a result they are redoubling their effort to combat the monarchist propagandists.

Sell's Successors Favors League Copenhagen. — Count von Brockdorff-Ruzavicz, German minister to Denmark, who has just been appointed foreign secretary in succession to Dr. Sell, interviewed by the Berlin correspondent of the Politikon, said he cherished no illusions as to the difficulty of the task confronting him, but declared he had confidence that the German people had now taken their own fate into their hands.

The count said his earnest aim was to achieve a peace based on the President Wilson's fourteen points, and thereby secure a league of nations.

Want 44-Hour Week

London. — Labor union throughout the United Kingdom are agitating for a 44-hour week. This would mean eight hours a day on five days of the week and four hours on Saturday.

"AND A LITTLE CHILD SHALL LEAD THEM"

Are values in our community shrinking? Is our neighboring town getting ahead faster than ours? Are we making a poor bargain? Have we caused to wish we had done differently? Then this old familiar picture of one of the best known in the world may start us thinking on the right track. Home values are bound to shrink. If our policy of trading is wrong. We only need to borrow the wisdom of a child to appreciate the value of trading at home. Patronize the Home Merchant.

Are Taking Drastic Measures

Bolsheviks Kill Those Who Oppose Their Plans

Copenhagen. — German reports say that Bolshevik troops are advancing in the direction of the German frontier, in order to join German sympathizers. The German armies in Russia are still retreating, leaving in the hands of war minister Trotsky all their war material.

The Ninth regiment of Riga, says that 400 persons were arrested by the Bolshevik authorities in Pskov, southwest of Petrograd. They were charged with being counter-revolutionaries and some of them received death sentences.

The men condemned to death, according to the newspaper, were compelled to dig their own graves, in which, after the execution, they were buried by other prisoners under sentence of many years imprisonment.

Melbourne. — Admiral Sir John Jellicoe, former first sea lord of the British admiralty, will come to Australia next in February to answer the question of the commonwealth's naval base program, according to an announcement made by Acting Prime Minister Watt, in the federal house of representatives.

Make Aims Known

Huns Do Not Want Country to Fall Into Hands of Socialists

Coblenz. — Appeals for the union of all the liberal parties being made in a republic and do not wish the new Germany to fall into the hands either of reactionaries or socialists, were made at a meeting of the German democratic party, which assembled in Coblenz to adopt a platform.

The party, including German-Austrian, equality before the law of citizens of all classes, male and female, free press and free speech, but no arbitrary attacks on the rights of the church. Families with many children, it is declared, should be kept from excessive taxation.

which, after the war, may be kept strong industry and healthy trade are necessary, as well as freedom of trade from the fetters of war industries.

The abolition of war industries is desired.

The party advocates the living of the people on the basis of the old. It must be secured a livelihood, in order to insure good service. There must be sympathetic care for the war-wounded and the dependents of the fallen soldiers, which would be made a point of honor in the new Germany.

Upon this platform, it is announced, the German democratic party will stand in the national assembly.

Spain Raising Question of The Return of Gibraltar

Conditions in Russia are Now Worse Than Ever

Food and Relief Needed to Save Country from Disaster

Seattle. — Charles R. Crane, formerly member of the Root commission, but back from Siberia, and the Orient, says: "No one knows anything about Russia; it is a tragedy. There are two things which stand out distinctly which are desperately needed, the absolute need of Russia for relief."

Men who possessed great knowledge of Russia prior to the war and even during her participation in the war, Mr. Crane declared, "could give correct views on the country. To supply food and relief and save the country from a dangerous position," he said, "the trans-Siberian railway must be improved and kept in steady operation."

Warsaw. — Two million Russian prisoners, the first thousands of which are slowly passing homeward, are being picked up by the Polish army, for the formation of their army, all of whom appear to be tainted with Bolshevism and there is danger of this spreading to Poland and Bohemia.

The Poles are rapidly organizing their own army around the nucleus of General Pilsudski's phalanx. The old Polish legion of home-weary troops, which are coming home, have no Russian or German sympathies merely desiring to be left alone.

St. Petersburg. — "The situation is very tight toward the Kaiser and crown price as institutions, but there is little personal feeling against them. Many people seem to feel that the loss of their throne was sufficient punishment. Represented Germans expressed a willingness to pay a nominal indemnity, but realizing their total defeat, fear the ally will dismember the empire."

The Bolsheviks are another bugaboo. It is becoming more apparent, however, that the Spaniards are more trouble-makers and that many of their demonstrations are only bluffs. The country appears to be getting solidly behind the Ebert-Hase government and the disorders are expected to decrease as the food situation improves.

Riots at Essen

Strikers Attack Prison to Release Leaders

Zarich. — Bloody street fighting at Essen between the forces of the workmen and soldiers' council and Spartacists was reported in a despatch here. There were many casualties. The Spartacists apparently were defeated.

Rioting started when leaders of a strike at the Bottorri mine were arrested by agents of the workmen's council and soldiers' council.

The Spartacists obtained reinforcements, attacked the prison, freed their comrades and imprisoned the soviet representatives.

Shortly afterwards an armed mob marched upon the Muller mine and attempted to destroy the plant. Workmen's and soldier's force, planting machine guns at strategic points, met the rioters with a deadly fire and dispersed them. Many fall.

PROTEST FROM HUNGARY

Claim Allies are Disregarding Armistice Terms

Budapest. — Count Karolyi, the Hungarian leader, in addressing the people's assembly, declared the allies were not complying with their part of the armistice agreement. He declared that it was impossible to maintain the existing policy of the country remained unsatisfied.

Count Karolyi told the assembly he had sent a message to President Wilson, expressing adherence to the president's principle and protesting against what he declared were violations of the conditions that the allies were not complying with. He was decidedly awaiting the president's decision, he added.

New Credit to Great Britain

Washington. — A new credit of \$250,000,000 was established in favor of Great Britain by the treasury. Great Britain's indebtedness now is \$4,195,000,000 and the total loans to all allies \$9,464,540,000.

The Great Britain established under an agreement to furnish an equal amount to the American expeditionary force.

CURIA

Heals Pimples With One Cake Soap and One Box Ointment.

Face never free from pimples for two or three years. Went to doctor, but nothing done. Then I used Curia. It cured me. It is a tremendous cure. It might as well be compared to the task of shifting contents of a building housing one of the great engineering works in America and setting it up in a new place.

Meanwhile, the ointment confers which mean so much and decide so much in laying the groundwork for such a task as to before the peace conference, will continue to make progress. The president is expected to get acquainted with the men with whom he is to deal, so that he may discuss with the greatest freedom the problems arising and decide the value of the personal equation.

From the president's point of view, it is believed, there are plans to be said and to be done, and to be avoided, antagonism, because, despite all the points to be cleared up, upon which wide agreement of opinion have been expressed, as representing public opinion in the United States and France, the president is confident that an acceptable agreement will be reached before the peace conference.

Minard's Liniment Cures Diphtheria.

PORTUGAL MAY HAVE REVOLUTION

President Was Assassinated for Suppressed Liberty.

Paris. — The assassination of the Portuguese president, who has been inspired by the republican party which charged Dr. Pais with exercising a reactionary dictatorship and suppressing liberty.

They declare that since he came into power more than 5,000 republicans have been arrested and still remain in prison, including numerous distinguished officers and civilians. They add that the present situation in Portugal is little better than anarchy and predict a republican revolution in the near future.

When a mother detects from the writhings and frettings of a child that her own are troubling it, she can produce no better remedy than Milner's Nerve Powders, which are guaranteed to totally expel worms from the system. They may come from the fact that this need be no anxiety, because it is not a non-specific, but a specific, thorough cure. No worms can long exist where these Powders are used.

SCHOOL FOR SOLDIERS

University of Toronto Has Plan to Fit Men for University

Toronto. — The authorities of the University of Toronto have now definitely decided to open a special school of instruction for soldiers who have not as yet reached their matriculation standing. This special class will be opened in February.

President Falconer says the scheme is to fit the men who come back to enter the university as soon as possible. It would be very difficult, he declared, for such men to go back to high schools and collegiate institutions and be in the same class with junior pupils.

The schools will be continued this summer, and it is hoped that by the opening of the university next October many of the students will be in a position to enter upon their vocation.

Would Abolish Titles

Minister. The new antireligious government, says a Stuttgart dispatch, proposes to abolish nobility titles and powers.

The Popular Choice

People of culture, taste and refinement are keen for health, simplicity and contentment. Thousands of these people choose the cereal drink.

Plain Things To Say Will Conquer French Plan

And President Wilson Wants to Say Them

Paris. — After the conference he has had in Paris and the personal examination he has made into the situation here, President Wilson has come to understand fully why the peace conference cannot get under way for the first of the year. The mere task of getting the American mission to the conference settled in its offices is a tremendous job. It might as well be compared to the task of shifting contents of a building housing one of the great engineering works in America and setting it up in a new place.

Meanwhile, the informal conferences which mean so much and decide so much in laying the groundwork for such a task as to before the peace conference, will continue to make progress. The president is expected to get acquainted with the men with whom he is to deal, so that he may discuss with the greatest freedom the problems arising and decide the value of the personal equation.

From the president's point of view, it is believed, there are plans to be said and to be done, and to be avoided, antagonism, because, despite all the points to be cleared up, upon which wide agreement of opinion have been expressed, as representing public opinion in the United States and France, the president is confident that an acceptable agreement will be reached before the peace conference.

GREAT BRITAIN APPROPRIATES SACRIFICES

Canadian Butter Helped to Maintain Small Ration

Ottawa. — Right Hon. J. C. Clynes, food controller of Great Britain, has just sent to Sir Robert Borden, prime minister, a letter in which he expressed Great Britain's appreciation of the assistance rendered by Canada last September in commandeering Canadian supplies in the war.

Swiss Traveller Thrills Over Coast Scenery and Climate

On that beautiful trip from Victoria to Vancouver, a Swiss traveller enraptured over the view he was obtaining, remarked: "I have travelled much more over the world and throughout my country—and no one who has been in Switzerland will dispute the beauty of the Alps—but for their magnificence, for the sun riot in chaotic splendor, I have never witnessed anything so inspiring as this, nor set in such a genial flow."

As winter vacation resorts offering every manner of outdoor and indoor recreation, few, if any, in the world can compare with the coast of British Columbia.

Delightful bungalows may be rented reasonable, of accommodation may be had either in the Hotel Vancouver of that city, or the Empress Hotel at Victoria, one of the largest, finest and best appointed hostesses either in Canada or the United States.

Thrilling, scenery and comfortable travel through the Canadian Rockies is afforded by the trip over the main line of the Canadian Pacific Railway, with stop-over, privilege at Banff. Two first-class trains operate daily on this system with a service of equipment, car excellence, and service which Canadian Pacific representative, who will be glad to tell you all about it.

Minard's Liniment Cures, Colds, etc.

Canadians Aided At St. Lucia Also

British Government Thanks Garrison

Ottawa. — The following cablegram from Rt. Hon. Walter Long, British secretary of state for the colonies, has been received: "Now that the withdrawal of the Canadian garrison from St. Lucia has ended upon, the local committee of the admiralty and the army council wish to express their appreciation of the services of the Canadian forces who, in the name of His Majesty's ships and the merchant marine are indebted for the sense of security which the defence of the island has given during the period of hostilities."

Principle of Society of Nations Will Be Brought Before Peace Conference

Paris. — Baron D'Alema, director of the Associated Press, the French plan for bringing about a society of nations, which the baron and Senator Clemenceau, formerly minister by French premier, presented to Premier Clemenceau a few days ago. The French premier, says assurances that the principle of the society of nations would be brought before the peace delegates.

Explicit details of the plan presented to Premier Clemenceau, Count D'Alema, director of the Associated Press. The essentials of the plan are: "First, compulsory arbitration without limitation or exception. This leaves out the old question of questions involving national honor and dignity."

Second, limitation of armaments. "Third, the establishment of a Council of administration of the nations for the formation of new and international law procedure."

"Fourth, the application of 'sanctions' for making effective the decisions of the council of nations. 'Sanctions' is a diplomatic expression meaning the various steps that the society of nations shall take to enforce the compliance. They are fourfold:

"First, diplomatic sanction, the society of nations shall break diplomatic relations with any recalcitrant nation, and give its passports to the ambassador or minister representing that nation."

Second, judicial sanction, whereby the courts of all countries will be directed to a recalcitrant nation. It will thus, practically be quarantined and placed outside the pale of civilized states."

Third, economic sanction whereby the society of nations shall be directed against any recalcitrant state. This economic warfare of the united nations will be a great power in itself, and may be used, cutting off its foodstuffs, its raw materials, when it acts in defiance of the society of nations."

Fourth, military sanction—the last and the most serious, which the joint nations would undertake to enforce against any nation that defied the society of nations. This military sanction is the most difficult and delicate of all questions involved in creating the society of nations."

ENRAGED WITH VIEWS

Swiss Traveller Thrills Over Coast Scenery and Climate

On that beautiful trip from Victoria to Vancouver, a Swiss traveller enraptured over the view he was obtaining, remarked: "I have travelled much more over the world and throughout my country—and no one who has been in Switzerland will dispute the beauty of the Alps—but for their magnificence, for the sun riot in chaotic splendor, I have never witnessed anything so inspiring as this, nor set in such a genial flow."

As winter vacation resorts offering every manner of outdoor and indoor recreation, few, if any, in the world can compare with the coast of British Columbia.

Delightful bungalows may be rented reasonable, of accommodation may be had either in the Hotel Vancouver of that city, or the Empress Hotel at Victoria, one of the largest, finest and best appointed hostesses either in Canada or the United States.

Thrilling, scenery and comfortable travel through the Canadian Rockies is afforded by the trip over the main line of the Canadian Pacific Railway, with stop-over, privilege at Banff. Two first-class trains operate daily on this system with a service of equipment, car excellence, and service which Canadian Pacific representative, who will be glad to tell you all about it.

Canadians Aided At St. Lucia Also

British Government Thanks Garrison

Ottawa. — The following cablegram from Rt. Hon. Walter Long, British secretary of state for the colonies, has been received: "Now that the withdrawal of the Canadian garrison from St. Lucia has ended upon, the local committee of the admiralty and the army council wish to express their appreciation of the services of the Canadian forces who, in the name of His Majesty's ships and the merchant marine are indebted for the sense of security which the defence of the island has given during the period of hostilities."

THE REVIEW, BOW ISLAND, ALBERTA

Loyal To Britain

Editor Says India Prefers to Remain Under the Empire

New York. — That the people of India have determined to remain under the sovereignty of the British empire was the declaration made by Winston Churchill, formerly editor of the Oriental Review, of Bombay, India, in an address at the twenty-third street branch of the Y.M.C.A., in which he attacked Oswald Garrison Villard, editor of the Nation, for having advocated the immediate application of the principle of self-determination in the government of India at a recent dinner of the India House League of America.

"I do not know how much time Mr. Villard has spent in my country, or how deeply he has delved in the lore of the ancient and modern history of India," said Mr. Rostenzie. "I do, however, know that he wrote a book entitled 'Germany Unhindered,' in which he praised the greatest criminal of the world has produced."

"It Freed Me Of Headaches"

This Is What Many Thousands of Nervous People Say About Dr. Chase's Nerve Food—Not Mere Relief, But Lasting Cure

Chaviv, Alta. Jan. 1.—When the human system gets run down, the blood that carries the nerves and the most constant and distressing symptoms is headache. There is always a tendency to use stimulants to ease the pain, but such remedy is a temporary relief, and at enormous expense to the nervous system, and the headaches re-appear. Real cure is only obtained when the vigor of the nervous system is restored by such treatment as Dr. Chase's Nerve Food.

Mr. Rene Page, Chaviv, Alta., writes: "I have used Dr. Chase's Nerve Food, with splendid results. Some little time I seemed to lose my appetite, and suffered from frequent headaches. I used Dr. Chase's Nerve Food soon put me on my feet again. It helped my appetite, freed me from headache, and restored my strength. I feel like a new man now, and thank Dr. Chase for the Nerve Food, the greatest remedy ever known. I also have to thank Dr. Chase for the Nerve Food, a steady cure of lumbago's pain. I have used it for pimples and burns."

Certified to by Lester K. Roy, J.P., Chaviv, Alta. "I have used Dr. Chase's Nerve Food, with splendid results. Some little time I seemed to lose my appetite, and suffered from frequent headaches. I used Dr. Chase's Nerve Food soon put me on my feet again. It helped my appetite, freed me from headache, and restored my strength. Editor Says India Prefers to Remain Under the Empire

New York. — That the people of India have determined to remain under the sovereignty of the British empire was the declaration made by Winston Churchill, formerly editor of the Oriental Review, of Bombay, India, in an address at the twenty-third street branch of the Y.M.C.A., in which he attacked Oswald Garrison Villard, editor of the Nation, for having advocated the immediate application of the principle of self-determination in the government of India at a recent dinner of the India House League of America.

"I do not know how much time Mr. Villard has spent in my country, or how deeply he has delved in the lore of the ancient and modern history of India," said Mr. Rostenzie. "I do, however, know that he wrote a book entitled 'Germany Unhindered,' in which he praised the greatest criminal of the world has produced."

"The principle of self-determination is a fascinating ideal, but in all other things, it is capable of various interpretations and limitations. If self-determination means the opinion of the people of the country, they are capable of giving their judgment of the method of government, then I say that we in India have self-determined to remain under the rule of Great Britain."

"For if we had not so self-determined, the war broke out and after India was denuded of all British troops, the people would at least have been the shake off the yoke of Great Britain," he continued, "but instead of aggravating the military situation of England and trying to repudiate our allegiance to the British crown, we were the first in the field to offer our men and our money in defence of the British empire."

Playing Traitor To Bohemia

Austrians Try to Deceive Peace Conference by Lies

Washington. — Charles Fenger, diplomatic representative here of Bohemia, made public a statement from the Bohemian government charging that the very moment Vienna was lagging for and receiving coal from Bohemia, the information given was furnishing a basis to hostile enemies.

"The accusation that we failed to furnish Vienna with coal is designed to create a false impression of our intentions," says the statement, "but the government making the charge is also ordering the Germans to occupy the coal mines at Dnes and Thibitz, in order to prevent us from using the mines and to create difficulties. The German government is acting in this manner, and when my husband sent I would have been all right, and sent up some medicine, but it only seemed to increase the trouble, and he was taken to the hospital. The doctors examined me, but could not understand my condition."

Then they sent for a specialist, and he began to think it was a mistake. When the specialist came he was baffled for I answered his questions all right. Every day I was getting weaker, and when my husband came he said he was going, as he was tired of his thoughts, but said that he would stay with me."

Next day a friend came with a cab and a nurse, and I was taken to the hospital. I got a box of Milner's Heart and Nerve Pills. I started taking them at the end of two weeks. I could walk again, and I was able to do my own work."

Dr. Milner's Heart and Nerve Pills. I got a box of Milner's Heart and Nerve Pills. I started taking them at the end of two weeks. I could walk again, and I was able to do my own work."

DARTING, PIERCING SCIATIC PAINS

Give away before the penetrating effects of Sloan's Liniment

So do those rheumatic twinges and the jabbing of bones, the aching inflammation of neuritis, the very neck, the muscle, the ligament, again, the muscles, the nerves, and the throbbing brain.

The ease of applying, the quickness of relief, the positive results, the durability and the economy of Sloan's Liniment make it universally preferred. Made in Canada.

International Air Rules Made

London. — The British air board has drafted articles for an international air convention which will be signed in London, the articles were announced by Lord Webb, secretary of state for the air force. The draft is accompanied with the suggestion that an international conference be convened.

Was Pulled Through THE TRYING TIME IN A WOMAN'S LIFE

After H. M. Mearns, 2535 St. George Street, Toronto. — I was a woman who used Milner's Heart and Nerve Pills and began to feel better. I was in a bad way, in fact, I consider they saved my life. I had to have too many of my neighbors about me."

Two years ago last November I was in poor health. The doctor said it was a case of life, and that I would have to be very careful of myself. Shortly after that I received an awful shock that nearly killed me. The doctor told me that I was in a bad way, and that I would have to be very careful of myself. Shortly after that I received an awful shock that nearly killed me. The doctor told me that I was in a bad way, and that I would have to be very careful of myself."

Local and General.

The local L.O.L. expect to visit Medicine Hat on January 17th for a joint installation of officers.

Mrs. M. J. Brophy returned with her little boy last week from Ottawa.

J. W. Hurd recently attached to his store on Main Street a nice new thermometer, one of the very latest, and some time last Friday night it unaccountably disappeared.

Now the question presents itself--which of you bibulous ones had to take your temperature?

Miss Jane Fish of Alderson has been spending the holidays with her mother at the Geo. Heiber farm.

Geo. Redell, who we are glad to say has quite recovered from his recent illness, was down over the New Year and spent a few days receiving current events with his old friends.

Mrs. Harold Murray rejoined the hearts of a large number of friends when she returned on Wednesday from Coleman. Although feeling somewhat fatigued from the railway journey we are glad to hear she is nevertheless progressing very satisfactorily.

Mrs. Dixon who recently went under a serious operation at the Medicine Hat hospital returned home on Tuesday.

A new command meant for the New Year (or any old time) for distinguished guests only--I will pay up my arrears and delight the heart of ye editor, yes verily I'll delight him even to a new subscription.

Miss Lucille McLaren of Medicine Hat has been appointed teacher of the new Lansdell school. This school opens up for the first time on Monday, January 6th.

It is rumored around town that owing to the liquor ban being enforced at Hutter's certain discontented residents of our town is about to transfer his activities to "greener pastures," and a committee is being formed to present him with a suitable parting gift. We suggest that the committee hire a good mule.

A rumor circulating through the town that our local postmaster has changed over has not at present such foundation. A Mr. Whitehead paid a visit here but it is understood that the prospects did not appeal to him very strongly. Thus we hope that Mr. Robertson will still remain to dispense efficiently and with his accustomed courtesy our daily mail.

Mr. and Mrs. P. W. Brown have been enjoying through the holidays a visit from their daughter Bessie.

Isabel Whitney, L.A.R., is now accepting engagements to pupils for the pianoforte. She is also acting as agent to supply music.

Mrs. A. Mack spent Christmas with her parents at Barwell, returning home this week accompanied by Mrs. Agar, who will stay with her daughter awhile.

We hear that John Sanjuel has disposed of his farm to Jas. Russell.

Mr. and Mrs. Darling were in town from Medicine Hat over the New Year.

Among the many enjoyable New Year dinners held in town was one given by Mr. and Mrs. J. W. Hopkins who pleasantly entertained several of their "old-time" friends on Thursday night.

Among the numerous postcards received by the Review this New Year none was more appreciated than the one from Gerald Delmage, who, writing from "At the base," extends his "best wishes for a very Merry Xmas and a Happy and Prosperous New Year." We reciprocate most cordially Gerald's good wishes and trust that the New Year may be made the happier by the return of many of Bow Island's younger citizens.

Mr. and Mrs. Elmer Still are contemplating moving into town and will, it is said, reside on Lethbridge Avenue.

Mrs. F. MacWilliams returned with her two sons last week to Medicine Hat, where the latter will resume their studies.

Bow Island school will recommence on Monday next January 6th.

The New Year was ushered in locally (at least to all outward appearances) very quietly. The "pusher" celebrated the occasion by its accustomed whistle and threw its searchlight to the skies in search of the "Star of Bethlehem" (Beulah awaits to see them).

The host of the autoist was also heard, but no other sound greeted the birth of the New Year except an attempt to ring the town bell. This was so faint as to occasion the suspicion that either the bell needed oiling or that the person at the end of the rope had received "too much".

Mr. Cullen, our local C.P.R. agent, who has been suffering from a somewhat severe spell of sickness, returned to his duties this week.

Application for Lease of Road Allowance or Surveyed Highway.
NOTICE IS HEREBY GIVEN that John G. Murray of Malch has made application to the Minister of Public Works, Edmonton, for a lease of the following road allowance or surveyed highway, viz: North from the South-east corner of Sec. 11, T. 8, R. 11, W. 4th, nearly three-quarters of a mile to surveyed road through Forty-mile Coulee.

Any protest against the granting of the above mentioned lease must be forwarded to the Minister of Public Works, Edmonton, within thirty days from the date of this notice.

Dated at Malch, Alberta,
JOHN G. MURRAY, Applicant.
December 27th, 1918.
